Welcome!

Choosing what to do after Year 11 is an important step. It can feel positive, and it can also feel uncertain. **You do not have to work it out on your own.** There is help available, and there are different ways to move forward.

Sheffield City Council has created this guide to support young people to choose their next step after Year 11. It is for students working from **Pre-Entry Level up to Level 2** who are moving into post-16 learning. You may find it helpful to use this guide on your own or **with a parent, carer, teacher, careers adviser, or support worker.**

This guide shows the post-16 courses available in Sheffield at local schools, colleges, and training providers. If you are in Year 11 now, it can help you think about what comes next. The guide is organised by **subject and career area** so you can explore options based on what you are interested in and what suits you.

Everyone has different strengths and learns in different ways. Some people like practical learning, some prefer clear routines, and some need more time or support to build

confidence. All of these are normal. Looking at your options can help you understand what works for you and make your next step feel more manageable.

In England, **you must stay in education or training until you are 18.** This could be at college, in training, or in work with training. **If you have an Education, Health and Care Plan (EHCP),** you may be able to stay in education or training until you are **25** if this supports your preparation for adult life.

This guide is designed to be used on a computer or device, as it includes links you can click for more information. The details were correct at the time of writing, but things can change, so it is always a good idea to **check directly with schools and colleges.**

How to Use This Guide

This guide helps you look at post-16 options in Sheffield. It shows:

- different subjects and career areas
- courses you can study
- where you can study them
- what you can do next after a course

Who the Guide Is For

This guide is for young people who:

- are in Year 11 or have just left school
- are working from Pre-Entry Level to Level 2
- may have SEND
- may have an Education, Health and Care Plan (EHCP)

How the Guide Is Set Out

The guide is organised by **subject and career area**.

Each section includes:

- a short explanation of the career area
- the courses available in Sheffield
- entry requirements
- what the course could lead to next

Links to college and training provider websites are included later in the guide.

How to Read the Guide

You do not need to read this guide in order.

You can:

- start with subjects you like
- skip sections that are not for you
- read a little at a time
- come back to it later

You can use this guide on your own or with someone who supports you.

What to Do Next

After using this guide, you may want to:

- talk to someone about your ideas
- visit a college website
- ask questions about a course
- get help with applications

The next pages of this guide will show you **who can help**.

Who Can Help You

You do not have to plan your next step on your own. There are people at school and in Sheffield whose job is to help you. This table shows who they are and how they can help.

Who	What They Help With	Who It Is For	How to Contact
People at your school	Help you think about courses, next steps, and support. This can include teachers, tutors, SENCOs, learning support staff, or a careers adviser.	Young people still at school	Ask a teacher or adult you trust at school
Community Youth Services – Careers (IAG)	Careers advice, choosing courses, help with applications, planning next steps, and support if you are not in education, training or work. They also support young people with an EHCP.	Young people aged 13–25 in Sheffield	Phone: 0114 273 4462 Email: youth.services@sheffield.gov.uk Website: www.sheffield.gov.uk (search “Community Youth Services careers”)

Who	What They Help With	Who It Is For	How to Contact
Sheffield SEND Information, Advice and Support Service (SENDIAS)	Free and private advice about SEND, EHCPs, education options, and your rights. Help talking to schools and colleges.	Young people with SEND (up to 25) and parents/ carers	Phone: 0114 273 6009 Email: ssendias@sheffield.gov.uk Website: www.sheffieldsendias.org.uk

Who	What They Help With	Who It Is For	How to Contact
Sheffield Local Offer	Information about SEND services in Sheffield, including education, preparation for adulthood, travel support, health, and activities.	Young people with SEND (0–25) and parents/ carers	Website: www.sheffielddirectory.org.uk/localoffer
Colleges and training providers	Explain their courses, tell you what support they offer, help with applications, and answer questions about routines and timetables.	Young people thinking about college or training	Website links are included later in this guide

If You Are Not Sure Who to Contact

If you feel unsure, a good place to start is:

- someone at your school
- Community Youth Services (IAG)
- SENDIAS

They can help you work out what to do next.

What's Important to Young People in Sheffield?

When we talk to young people in Sheffield about the future, we hear many different ideas. Even so, lots of young people say they want similar things.

Many young people want:

- to have a job
- to make and keep friends
- to keep learning new things
- to be more independent

Young people also talk about the **types of work** they are interested in. These interests are wide and varied, and they can change over time.

Some common areas of interest include:

- working with computers and technology
- games, media, and creative work
- speaking, performing, or using their voice
- writing and sharing information
- online content and social media
- working in shops and customer service
- caring and health roles
- public services and helping the community

You do not need to decide what you want to do right now.

This guide will help you explore these interests and see which courses and pathways in Sheffield might suit you.

Different Pathways After Year 11

After Year 11, there is more than one way to move forward.

Different pathways suit different people. All of these are real options.

Pathway	What This Pathway Is About	Who it Can Suit	What It Can Lead to
Life Skills and Independence	Learning everyday skills for adult life, such as cooking, travel, routines, and working with others.	Young people who want to build confidence, independence, and routine with extra support.	Further courses, supported activities, volunteering, or work with support.
Foundation and Work Preparation	Building basic skills like English and maths and trying different types of work in a supported setting.	Young people who want to explore work ideas and get ready for jobs or further study.	Vocational courses, training, supported work, or entry-level jobs.

Pathway	What This Pathway Is About	Who it Can Suit	What It Can Lead to
Vocational Courses for Job Skills	Learning practical skills for a specific job area, such as catering, construction, caring, or digital work.	Young people who are ready to focus on a job area and learn by doing.	Entry-level jobs, apprenticeships, or further training.

A Helpful Reminder

You do not need to choose the “right” pathway straight away. Many young people move between pathways as they learn more about what suits them.

The next section explains **levels**, so you can see where you might start.

What Comes Next

The next section explains **Maths and English**, and why they are important for many courses and jobs.

Maths and English: What You Need to Know

**Maths and English are important for many courses and jobs.
Most young people keep working on these skills after Year 11.**

Subject	Why It Matters	What Usually Happens
English	Helps with reading, writing, speaking, and understanding information.	You may continue to study English if you do not yet have a GCSE grade 4 or Functional Skills Level 2.
Maths	Helps with money, time, measuring, and problem-solving.	You may continue to study maths if you do not yet have a GCSE grade 4 or Functional Skills Level 2.

A Helpful Reminder

If English or maths feels hard, you are not alone.

Many colleges offer extra support and different ways to learn.

You can work on these skills at your own pace.

Thinking About Your Future

Thinking about the future does not mean you have to decide everything.

It just means noticing what matters to you and what feels possible right now.

A Few Simple Things to Think About

You might find it helpful to think about:

- what you enjoy doing
- what you are good at
- what feels hard for you
- what helps you feel calm and focused

There are no right or wrong answers.

Start Small

You do not need a full plan.

You can start with one small idea, such as:

- a subject you like
- a type of activity you enjoy
- a place you would feel comfortable learning

Small steps are enough.

Talk It Through

You do not have to think about this on your own.

Talking to someone you trust can help, such as:

- a parent or carer
- a teacher or support worker
- a careers adviser

They can help you turn ideas into next steps.

A Helpful Reminder

It is okay if your ideas change.

Many people try more than one thing before they find what suits them.

The next section will help you think about your strengths and what you are good at.

Understanding Your Strengths

Everyone has strengths.

Strengths are the things you do well, or the things that come more easily to you.

What Strengths Can Be Like

Your strengths might be:

- practical skills, like cooking or fixing things
- thinking skills, like noticing details or solving problems
- people skills, like listening or helping others
- personal skills, like being reliable or sticking with tasks

All types of strengths matter.

Noticing Your Strengths

You might start to notice your strengths by:

- thinking about things you enjoy
- noticing what you feel proud of
- listening to what others say you are good at

You do not have to be good at everything.

Using Your Strengths

Knowing your strengths can help you:

- choose subjects or courses
- find learning that suits you
- feel more confident about your next step

Courses and pathways are there to match different strengths.

A Helpful Reminder

You are still learning about yourself.

Your strengths can grow and change over time.

The next section looks at coping with change and looking after yourself as you move forward.

Coping With Change

Change can feel hard.

This can include leaving school, starting something new, or meeting new people.

Feeling worried or unsure during change is normal.

There are simple things that can help, and there is support if you need it.

Simple Things That Can Help

You might find it helpful to:

- keep a daily routine
- do things you enjoy
- take breaks when you feel overwhelmed
- talk to someone you trust
- take slow, deep breaths to help you feel calm

You do not have to do all of these. Even one small thing can help.

Talking to Someone

Talking can make change feel easier.

You could talk to:

- a parent or carer
- a teacher or support worker
- a careers adviser
- a friend

If you need extra support, the services below can help.

Support Services in Sheffield

Service	What They Help With	Who It is For	How to Contact
Kooth	Online mental health support. You can message a counsellor or use self-help tools.	Young people aged 11–25	Website: www.kooth.com
Door 43	Support with mental health, wellbeing, and other worries.	Young people aged 13–25 in Sheffield	Website: www.sheffieldmentalhealth.co.uk/services/door-43
Golddigger Trust	Confidence building, mentoring, and workshops.	Young people in Sheffield	Website: www.golddiggertrust.co.uk
CAMHS	Mental health support for under 18s.	Children and young people under 18	Ask your GP or school about a referral

Service	What They Help With	Who It is For	How to Contact
Sheffield Mental Health Guide	Information about local mental health services and support.	Anyone in Sheffield	Website: www.sheffieldmentalhealth.co.uk

A Helpful Reminder

Asking for help is a good step.

You are not expected to cope on your own.

The next section looks at jobs in Sheffield and the types of work available.

Jobs in Sheffield

Sheffield is a large city with many different types of jobs. There are jobs for people with different skills, interests, and levels of experience.

Some jobs are practical. Some involve helping people. Some use computers or creative skills.

Common Types of Jobs in Sheffield

Health and care

Many people in Sheffield work in hospitals, care homes, clinics, and support services. These jobs include caring for others, helping people stay well, and supporting daily needs.

Education and childcare

There are jobs in schools, colleges, nurseries, and training centres. These roles support learning and help children and young people develop.

Retail and customer service

Sheffield has many shops, supermarkets, cafés, and shopping centres. Jobs often involve helping customers, stocking shelves, or working at tills.

Hospitality and catering

There are jobs in cafés, restaurants, hotels, and food services. These jobs can include cooking, serving food, cleaning, and welcoming customers.

Construction and trades

Some jobs involve building, fixing, or making things. These roles often use hands-on skills and may be indoors or outdoors.

Manufacturing and engineering

Sheffield has a strong history of making things. Some jobs involve machines, tools, or producing products in factories and workshops.

Digital and technology

There are jobs that use computers, software, and digital tools. These roles can include basic IT support, design, or working with data.

A Helpful Reminder

Most people do not start in their final job.

Many jobs begin with:

- entry-level roles
- training
- courses or apprenticeships

Skills can be built over time.

The next section gives **top tips** to help you choose your next step.

Top Tips for Choosing Your Next Step

Planning what to do after Year 11 can take time. These tips can help you move forward in a simple way.

Take It One Step at a Time

You do not need to decide everything now.

Focus on one small step, such as looking at a course or talking to someone.

Get Information

Use this guide to:

- look at different subjects
- see what courses are available
- learn what support is offered

You can go back and check things more than once.

Talk to Someone

Talking things through can help.

You could talk to:

- someone at your school
- a parent or carer
- a careers adviser
- a support worker

You do not have to make choices on your own.

Try Things Out If You Can

If possible, you might:

- go to a taster day
- visit a college
- look at a course website

Seeing a place or course can make it feel clearer.

Be Kind to Yourself

Change can feel hard. It is okay to feel unsure.

Everyone moves forward in different ways and at different speeds.

Remember

This is **your journey**. Choose what feels right for you.

What's on Offer in Sheffield

This part of the guide shows the **courses you can study in Sheffield** and **where you can study them**.

Courses are grouped by **subject and career area**. This helps you see which options match your interests.

What You Will Find in Each Section

Each section explains:

1. what the subject or career area is about
2. the courses available in Sheffield
3. the types of jobs available in this area
4. jobs you can do with more training or experience

Some courses help you learn job skills. Some help you build confidence and independence. All are valid options.

I'm interested in...
Engineering

The engineering sector is all about designing and building things to make life better. Engineers use science and math to solve problems and create things we use every day, like roads, bridges, machines, and new technology. Different types of engineers work on different projects: for example, civil engineers focus on roads and bridges, mechanical engineers design machines, electrical engineers work with electronics, and software engineers create computer programs.

Engineering is important because it helps improve the world around us. Engineers often work in teams to turn their ideas into reality, making it a great field for people who enjoy problem-solving and technology. There are many opportunities to learn and grow in engineering, which makes it an exciting career choice!

Below are the available courses, their entry requirements and the name of the school or college who delivers them.

Course	Entry Requirements	Provider
Engineering Level 1	4 GCSEs at grade 2 or above to include English Language and Maths	The Sheffield College
Engineering Level 2	4 GCSEs at grade 3 or above to include English Language, Maths and Science	The Sheffield College

Where could these courses take you?

Early careers in this sector include engineering technician, manufacturing technician, mechanical assembly technician, maintenance technician, quality inspector, engineering operative, production operative, CAD technician, design technician and mechanical design assistant.

What other jobs are there in this area?

Other roles which would require further specific training, qualifications or experience include software engineer, manufacturing engineer, quality assurance engineer, electrical engineer, civil engineer, mechanical engineering system engineer, environmental engineer or research and development engineer.

How This Can Help You

Looking at these sections can help you:

- understand different types of work
- see what learning might suit you
- think about your next step

You do not need to choose straight away.

A Helpful Reminder

You are not choosing your whole future here.

You are exploring options and finding what feels right for you now.

Provider Websites

These links take you to provider websites. You can use them to check courses, support, and how to apply.

You do not need to visit every website. Start with the providers you are interested in.

Students who finish these courses have gone on to get jobs, start apprenticeships, or volunteer in different roles. These courses help you explore and choose the right career for you, whether it's in retail, office work, hospitality, or other exciting areas.

I'm Interested in...

Animals

The animal sector is all about working with animals and making sure they are happy and healthy. People in this field can work in places like vet clinics, farms, animal shelters, zoos, or wildlife conservation centres. They help animals stay healthy, find them loving homes, or learn about them to protect their natural habitats. This work is perfect for anyone who loves animals and wants to help make their lives better!

Below are the available courses, their entry requirements and the name of the school or college who delivers them.

Course	Entry Requirements	Provider
Animal Care Level 1	No formal entry requirements, but you must have a passion for the care of animals and a good work ethic	Nacro
Animal Care Level 2	Previous level 1 Animal Care qualification is desirable. Alternatively, you must have a passion for the care of animals and a good work ethic and hold at least Level 1 English and Maths	Nacro

Course	Entry Requirements	Provider
Animal Care Level 2	4 GCSEs at grade 3 or above to include English Language, Maths and Science	The Sheffield College
Land Based Studies Level 1	4 GCSEs at grade 2 or above to include English Language, Maths and Science	The Sheffield College
Animal Care Level 1	Please ask provider	Kenwood Academy
Animal Care Level 2	Please ask provider	Kenwood Academy

Where could these courses take you?

This work sector includes jobs where people look after pets, farm animals, and even wild animals.

Some examples of early careers in this sector are animal care assistant, kennel assistant, pet grooming assistant, dog walker, pet shop assistant, farm hand, stable hand, and wild life assistant.

What other jobs are there in this area?

Other roles which would require further specific training, qualifications or experience include veterinary nurse, veterinarian, animal trainer, wildlife biologist, marine biologist, zookeeper, animal behaviourist, animal shelter manager, conservation officer and equine specialist.

I'm Interested in...

Business

The business sector is all about how companies and organisations make things to sell to customers. This includes many different types of businesses, like shops, restaurants, and technology companies.

People who work in this area might do jobs in marketing (getting people to buy things), finance (managing money), human resources (helping employees), or management (running the business). Their jobs could be about selling products, planning events, or making sure everything runs smoothly.

This sector is great for those who enjoy working with others, solving problems, and being creative. There are lots of exciting career opportunities, and it's a fun field where you can really make a difference in the economy and your community!

Below are the available courses, their entry requirements and the name of the school or college who delivers them.

Course	Entry Requirements	Provider
Business level 1	4 GCSEs at grade 2 or above to include English Language	The Sheffield College
Business level 2	4 GCSEs at grade 3 or above to include English Language or Maths at grade 4	The Sheffield College
Business BTEC Level 2	2 GCSEs at grade 3 or above	Longley Park Sixth Form College

Where could these courses take you?

business administration assistant, customer service representative, operations assistant, quality control assistant, retail assistant, sales assistant, human resources assistant, junior project coordinator, or digital marketing assistant.

What other jobs are there in this area?

Other roles which would require further specific training, qualifications or experience include business administrator, human resources officer, accountant, business analyst, logistics coordinator or paralegal.

I'm Interested in...

Construction

The construction sector is all about building things like houses, schools, offices, and bridges. There are lots of different jobs in this field, from coming up with designs to actually putting the buildings together. The construction sector is really important because it helps create the places where we live, work, and have fun.

This is a great field for people who like working with their hands, solving problems, and being part of a team. Plus, there are many chances to learn new skills and grow in this industry!

Below are the available courses, their entry requirements and the name of the school or college who delivers them.

Course	Entry Requirements	Provider
Construction (Multi-Trades)	No formal entry requirements. Minimum 1-year prior learning in post-16 education preferred	Sheaf Training
Brickwork Level 1	4 GCSEs at grade 2 or above to include English Language	The Sheffield College
Carpentry and Joinery Level 1	4 GCSEs at grade 2 or above to include English Language	The Sheffield College

Course	Entry Requirements	Provider

Photography and Journalism Level 2	4 GCSEs at grade 3 or above to include English Language	The Sheffield College
Film and TV Level 2	4 GCSEs at grade 3 or above to include English Language	The Sheffield College
Essential Digital Skills (Open Awards Qualification)	No formal entry requirements	Bents Green
Arts Award (Silver) Creative and Digital Media	Please ask provider	Kenwood Academy
GCSE Art	Please ask provider	Kenwood Academy
Level 2 in ESports (Electronic Sports)	No formal entry requirements	Sheffield United Football Club

Course	Entry Requirements	Provider
Art and Design UAL Level 2 Diploma	At least 2 grade 3s at GCSE	Longley Park Sixth Form College

Where could these courses take you?

Jobs in digital and creative fields can include creating content for websites, designing logos, editing videos, or even building apps and games. This sector is important because it helps businesses connect with people and makes information easy and fun to understand.

Early careers include: photography assistant, production runner, junior graphic assistant, camera assistant, lighting assistant, production assistant, gallery assistant, interactive media assistant, printmaking assistant, junior art assistant, or social media assistant.

What other jobs are there in this area?

Other roles which would require further specific training, qualifications or experience include photographer, graphic designer, creative director, games designer, animator, art director or digital marketing specialist.

I'm Interested in...

Early Years and Education

The early years and education career area is about helping babies, children, and students learn new skills and feel safe and happy. It includes nurseries, primary schools, secondary schools, colleges, and universities in Sheffield and across the UK. People who work in this area support children with play, lessons, talking, reading, numbers, and getting used to daily routine.

This career area is good for people who enjoy sharing what they know, helping others, and working as part of a team. You can make a real difference in your community by helping children grow, make friends, and become more independent. There are many different job options, so this can suit lots of strengths and interests.

Below are the available courses, their entry requirements and the name of the school or college who delivers them.

Course	Entry Requirements	Provider
Education and Early Years Level 1	4 GCSEs at grade 2 or above to include English Language	The Sheffield College
Education and Early Years Level 2	4 GCSEs at grade 3 or above to include English Language and Maths	The Sheffield College

Course	Entry Requirements	Provider
Cache Level 2 Diploma for the Early Years Practitioner	A minimum of 2 GCSEs at grade 3 or above	Longley Park Sixth Form College

Where could these courses take you?

These early years and education courses can lead you to entry level jobs such as playworker in holiday clubs, childcare assistant in a nursery, nursery nurse, teaching assistant in schools, learning support assistant, SEND assistant helping students with additional needs, or Early years educator supporting young children each day with games and learning. In these roles you help with play, classroom work, meals, and calm routines while you keep building more training and experience.

What other jobs are there in this area?

Other roles which would require further specific training, qualifications or experience beyond Level 2 include primary school teacher, secondary school teacher, early years educator at Level 3 or above, special educational needs teacher, further education lecturer in colleges, special educational needs coordinator, called a SENCo, or careers adviser in education teams. These jobs need higher study, but the skills you start building in early years and education are important first steps toward them.

I'm Interested in...

Engineering

The engineering sector is all about designing and building things to make life better. Engineers use science and math to solve problems and create things we use every day, like roads, bridges, machines, and new technology. Different types of engineers work on different projects; for example, civil engineers focus on roads and buildings, mechanical engineers design machines, electrical engineers work with electronics, and software engineers create computer programs.

Engineering is important because it helps improve the world around us. Engineers often work in teams to turn their ideas into reality, making it a great field for people who enjoy problem-solving and technology. There are many opportunities to learn and grow in engineering, which makes it an exciting career choice!

Below are the available courses, their entry requirements and the name of the school or college who delivers them.

Course	Entry Requirements	Provider
Engineering Level 1	4 GCSEs at grade 2 or above to include English Language and Maths	The Sheffield College
Engineering Level 2	4 GCSEs at grade 3 or above to include English Language, Maths and Science	The Sheffield College

Where could these courses take you?

Early careers in this sector include engineering technician, manufacturing technician, mechanical assembly technician, maintenance technician, quality inspector, engineering operative, production operative, CAD technician, design technician and mechanical design assistant.

What other jobs are there in this area?

Other roles which would require further specific training, qualifications or experience include software engineer, manufacturing engineer, quality assurance engineer, electrical engineer, civil engineer, mechanical engineer, system engineer, environmental engineer or research and development engineer.
